Private Roof Top - Monaco Planters Showcase

## ROSE BAY, SYDNEY

Private Residence Roof Top Entertainment Area.

IOTA's Monaco range of troughs, made of natural slate, were used to border the edge of the roof top of a private residence in Rose Bay, Sydney. 72 troughs in total were used throughout the entire residence, the majority on the roof top entertainment area.

The troughs act as a safety barrier to the ledge and compliment the spectacular views of the Opera House, Harbour Bridge and other Sydney Landmarks.
