Extra - Large Granite Planters

IOTA's smart and stylish granite planters in natural dark grey stone are well suited to many contemporary schemes. They are frequently specified for commercial developments and public spaces for their strength, weight and solid construction. We offer a selection of extra-large planters in the range which are designed to be on a scale with such environments – to have a real presence within the space, and to help to shape it.

For specific requirements, larger sizes than those shown here can be custom ordered.

Taper XL and XXL XL: H80 W/D40cm XXL: H100 W/D40cm

These tall, elegant planters are ideal for entrances and other signpost areas.
