Brisbane Office Building

BRISBANE CBD

Outdoor smoking area.

IOTA's granite planters were chosen for the outdoor smoking section of one of the buildings in Queen St in the CBD of Brisbane.

A selection of Granite tall squares and trough 1000's were chosen to create a boundary for the area, and planted up with Lilly Pillies.

The granite range gave a nice slick feel which suited the CBD scheme and were chosen for their solid construction and suitability for outdoors and public spaces.
