Noosa Heads Residential Project - Monaco Slate Planters Showcase

## SLATE OUTDOOR GARDEN POTS

Private Residence - Noosa Heads

This residential project required a feature between the garage and front door to break up the space and green up the paved area. The Monaco natural slate garden pot range suited the soft tones of the house and look great in the afternoon sun.

A linear repetition of three small taper slate planters lead from the path to the front door to guide visitors and soften up the area.
