Queen Victoria Market - Granite Planters Showcase

QUEEN VICTORIA MARKET MELBOURNE

Inner City Streetscaping

IOTA's granite planters were chosen for Melbourne's iconic Queen Victoria Market.

30 Tall Square Large pots line the Elizabeth St cafe area with plantings of Lilly Pilly that help divide the eating area from the busy city road.

Around the corner in Therry St, 4 of the Taper 800's from the extra large outdoor pot range are used to define and break up a seating area situated on the side of the market. The extra large size of these planters allows for a large Lilly Pilly tree in the centre surrounded by a mixture of strappy foliage plants.

The IOTA granite range is particularly suitable to open public and commercial spaces such as these.
