Gold Coast Westpac

GOLD COAST

Westpac in Cavill Avenue.

IOTA's granite planters were chosen for the plant scape at the front of the Westpac in Cavill Avenue on the Gold Coast. The area is in the nightlife district and planters needed to be chosen that were suitable for such heavy duty commercial use

A selection of Granite trough 1000's and a Taper 800 were chosen to create a green area between the automatic teller and the entrance. The effect of a garden has been achieved without the need to dig up the pavement.
